Artists Statement:

This work is about journeying.

This work is about magic.

This work is about transformation, and about spirit...and very old universal forms that
have been used throughout all of time.

This work is about the dynamics of pattern.

It is about a sense of the sacred.

It is about stepping from the outside...to the inside,

An emotional and visual crossing over

As though on a journey with a Shaman

And the bird becomes our guide.
